- Critical thinking
- Resilience

ABOUT ME

I am Divyansh Soni, a Flutter Developer with 1 year of experience in building scalable and high-performance mobile applications. Proficient in Dart, I have expertise in state management solutions such as Provider and Riverpod, ensuring efficient application architecture and performance optimization.
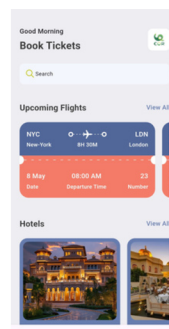

In addition to mobile development, I have experience in UI/UX design, focusing on creating intuitive, visually appealing, and user-friendly interfaces. I specialize in designing seamless user experiences that align with modern design principles and enhance application usability.

My technical expertise includes working with Firebase for authentication, real-time database management, and cloud services. I am also skilled in local storage solutions such as Sqflite and Hive, ensuring efficient data management and offline functionality.

I am dedicated to writing clean, maintainable code and continuously staying updated with the latest advancements in Flutter development and UI/UX trends to deliver optimized and user-centric applications.
